Prices quoted below are today's values f. o. b. Philadelphia. Except where definitely described as certified, all varieties and strains are understood to be type. Bags included. Quotations are basis full bag lots; when broken lots are ordered we are obliged to charge a higher price to cover cost of breaking packages.

The Philadelphia Seed Co., Inc., gives no warranty, express or implied, as to the productiveness of any seeds it sells and will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of the seed.

(1) ALFALFA

IMPORTANT!

The prices in this column give the comparative values* of the different origins of Alfalfa that we, under normal conditions, would be able to supply. However, under the conditions that actually prevail today it must be emphasized that all quotations must be strictly subject to stocks unsold and our further confirmation.

It is requested that you communicate with us in order that we can advise just which origins we can supply at the time.

*Values are approximate because, under OPA regulations, the exact price is calculated separately, on each and every lot, and lots are changing constantly.

NOTE: ALFALFA SHOULD BE INOCULATED. SEE SIZES AND PRICES, COLUMN 7.

(2) MARKET CONDITIONS

ALFALFA: Since our annual Crop and Market Report was issued on October 27, there has been no satisfactory movement of Alfalfa seed from the producing sections. It is impossible to say how long present conditions may prevail but it is earnestly to be hoped that a freer movement of seed may later take place.

In order that you may intelligently discuss the subject with your farmers, we list in column 1 the comparative values of different origins of Alfalfa but please note, under conditions prevailing today, no assurance can be given that the needed seed can be supplied. If you will communicate with us we shall be glad to advise you just what seed we can supply at the time and of course while present conditions prevail, the situation can change from day to day.

ARGENTINE ALFALFA: The sale of Argentine Alfalfa is now permitted in this territory. Note quotation in column 1. We are now booking orders.

RED CLOVER: Considerable seed is still in the growers' hands. It is hoped that a goodly portion of this seed will come on the market soon; in the meantime kindly communicate with us for latest information as to what is available.

ALSIKE: Kindly write us for latest information.

INOCULATION: Attention should now be given to your early requirements in Inoculation. Kindly refer to our recent circular on this subject, if not already attended to.
